

## Westover c.1647: Tenants & Property

Information extracted from a Survey held in the Meyrick Archives, Hinton Admiral, Hants. The Survey dates from the Civil War period when Westover was administered by Cecil, Lord Baltimore. Each place name given here is a best-guess transcription of the (at times) barely legible script: other suggestions are welcomed.

The original survey was made in Latin in around 1647, but was later reviewed (perhaps as late as 1654) when notes were added in English. These notes are included in the transcription. Also included are notes marked "1654" which originate in "Mr. Lewin's noate of estate granted by the Lord Baltimore" concerning lands in Westover [Dorset CRO D/WLC/E181].

Originally grouped by tything, this transcript is arranged with tenants in alphabetical order.

Each property name usually appears more than once, indicating that use of fields was shared between a number of tenants. In the Size column, "dd" indicates a half.
